

Easy Peezy will eliminate ammonia odors and help promote equine respiratory health.

Mallard Creek Inc., a leading manufacturer of premium equine bedding and pellets, is promoting their newest product – Easy Peezy at the Western States Horse Expo, June 8-10, 2018 at Cal Expo in Sacramento. After researching the need for a stall freshener product that would not only be easy to use but extremely effective, Mallard creek was able to secure a partnership with premium Zeolite mining operation that produces some of the purest Zeolite on the market today. This ingredient is the key to Easy Peezy's success.

Boasting a 97% purity rating and an extremely high absorption ratio, this product is sure to be a favorite within the equine community. The most important contribution this product offers is the elimination of harmful ammonia odors which can cause long-term damage to a horse's lungs and airway.
